REF-POE NFG Series

Synthetic Refrigeration Compressor Lubricants

REF-POE NFG series of fully synthetic polyolester compressor lubricants were developed specifically for use with R-134A and other HFC refrigerants. They are miscible with all HFC's, HCFCs, CFCs and blends.

REF-POE NFG compressor lubricants offer excellent chemical and thermal stability, and they deliver superior lubricity characteristics with both steel and aluminum.

Properties / Characteristics	REF-POE NFG Series			
	32	46	68	100
ISO Grade	32	46	68	100
Viscosity @40°C, cSt	33	45.1	68.5	98.4
	5.8	7.2	9.5	11.3
Viscosity Index	118	121	117	101
Flash Point, °F (°C)	471	493	520	525
	244	256	271	274
Pour Point, °F (°C)	-58	-54	-44	-38
	-50	-48	-42	-39
